

Policy Document on Environment and Energy Use

Chandrapal Dadsena Govt. College Pithora is committed to protect and preserve Environment. Having recognized the fact that every strand in the web of life is indispensable and crucial for the conservation of ecosystem, the College sticks on to the following policy on Environment and Energy Use:

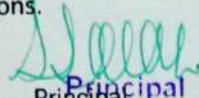

1. The College is committed to keep the environment unspoiled by reducing pollution to the minimum possible extent.
2. The College envisions sustainable development without harming the environment.
3. By restricting the minimum entry of vehicles that add to pollution. And fostering green vegetation, the campus atmosphere should be kept carbon neutral.
4. The College is keen on keeping the rich biodiversity of the campus intact.
5. The College assures that no development activity adversely affects the flora of the campus.
6. Everyone in the campus is obliged to reduce and manage waste.
7. The campus is litter-free and plastic and non-plastic waste are to be put in the specific waste bins set at different points in the campus.
8. The College does not promote the use of hazardous chemicals or toxic substances.
9. Solid, liquid and e-waste are to be disposed of specific instructions given in each case.
10. Preservation of water resources is an obligation of every stakeholders of college.
11. The need for rainwater harvesting should be communicated to the students and staffs.
12. It is our mission to raise the groundwater level for the people around and future generations.
13. The College should strive to become paper free in the administrative and academic endeavours to the maximum possible extent.
14. The College avails cent percent use of LED bulbs.
15. The College follows regular self energy audits and concludes the suggestions.

Green audit report 2017-18

Parameter of Auditing

1. Plantation

- Plantation programs
- Maintenance of the existing and newly planted plants
- Polled plants
- Fencing plantation
- Growing seasonal

2. Electricity conservation

- Use of CFL bulbs, tube lights of lesser watts
- Ventilated classrooms and laboratories with Sufficient natural light which minimize the use of electricity.
- Every 3-4 classrooms have an additional power supply board so as to control misuse of electricity.

3. Water usage

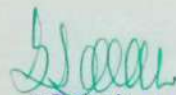

- Filtered (purified) drinking water
- Water saving taps.

4. Cleanliness drive

- Cleanliness drive to remove polythene and waste with the help of students
- Use of dustbins
- Sanitation
- Drainage

5. Environmental Awareness programme

- Environment studies in curriculum of all U.G. Programme.
- Project work in environment studies
